New and Distinct Roses

EVERY YEAR we purchase dozens of new roses which we try out in our own fields. Out of these, only a few come up to the high standard of perfection which they must meet before we recommend them to our customers.

In the twenty roses listed in our first collection, you will find what we consider the most striking and distinct of the roses. Their colors are typical of the modern thought in art, and you are sure to be pleased with the extremely novel and unusual color combinations of the varieties in this group.

The following roses are in stock from January 1st to April 1st. After that they will be established in 1 to 5 gallon containers at slightly higher prices.

Collection No. 1

Charles P. Kilham. H. T. A brilliant and striking variety which will appeal to and please all. Perfect, long, pointed buds open to beautifully formed double flowers of bright oriental red, flushed with orange and glowing scarlet. A vigorous grower, profuse bloomer, and sweetly scented. \$1.00 each.

Dr. Edward Deacon. H. T. Beautifully formed, very full flowers with fine lasting qualities. The margin of the petals are delicate shrimp-pink blending to deep salmon-orange at the base. Strong upright grower and free bloomer. \$1.25 each.

Edith Nellie Perkins. H. T. A rose of entirely distinct coloring. The buds are long and pointed and the color of the petals is a delightful combination of cream and bluish-pink shaded with orange at the base; very sweetly scented. The bush is a strong robust grower that blooms profusely and should succeed anywhere. \$1.00 each.

Elizabeth of York. H. T. Beautifully formed, long, pointed buds of a glowing cerise-red with yellow suffusion at the base. Petals as they unfold, spread widely with a splendid reflex, ultimately showing the stamens. The flower is highly artistic, dainty, and sweetly scented. \$1.00 each.

Frank Reader. H. T. A large massive flower with beautiful reflexed petals of good substance. The long graceful buds are at first a light lemon-yellow which changes as the flower expands, revealing a heart of golden apricot; it has a delicious rose-apple scent. The plant is a vigorous grower and free bloomer. \$1.00 each.

Irish Charm. H. T. A gem of exquisite form. The buds and flowers are of medium size; golden apricot passing to soft silver-pink. The bush is of strong branching habit and a remarkably free bloomer. 75c each.

Irish Charity. H. T. Probably the most brilliant of all the roses. The flowers are bright fiery-scarlet and are produced in great profusion on strong bushes that grow to a height of four feet. 75c each.

Irish Hope. H. T. An immense rose of bright crimson. The buds are of excellent form and the flowers are delightfully fragrant. The bush is a strong grower and the foliage is bright and clean. 75c each.

Irish Sweetness. H. T. One of the most free-blooming red roses grown. The shade of red is crimson lake with a suffusion of scarlet. The flowers have an extremely attractive fragrance and are borne in great numbers on a vigorous growing bush. 75c each.

Jules Gaujard. H. T. The flowers are large and double, appearing first as a beautiful shade of glistening cochineal-crimson which changes, as the flower expands, to a gorgeous shade of orange-rose. \$1.00 each.

Marion Cran. H. T. A truly wonderful color combination. The buds are a deep yellow, margined and flushed with cerise and rosy-scarlet. As the flower opens, the petals retain their original color, with the inside changing to a brilliant geranium-scarlet, flushed and veined with orange and yellow. The blossoms are double, of medium size, and produced most abundantly on a good, strong, vigorous bush. \$1.25 each.

Mme. Henri Queuille. Per. A splendid rose. Large full flowers, strong vigorous growth, and wonderful color. Shrimp or coral pink on an orange-copper base. \$1.00 each.

Mrs. Beatty. H. T. A fine self-colored light yellow with a delightful fragrance that resembles that of the old Le Marechal Niel. It is a strong grower with disease proof foliage. A continuous bloomer and destined to be very popular. 75c each.

Mrs. Erskine Pembroke Thom. H. T. A beautiful rose of pure, deep, lemon yellow. The buds are long and perfect and develop into large double flowers. A very profuse bloomer and good grower. \$1.00 each.

Miss Rowena Thom. H. T. A splendid new rose. The color is a rich flowing carmine suffused with orange and shading to golden orange at the base of the petals. The buds and flowers are perfectly formed and are produced on long stems; excellent for cutting. \$1.00 each.

Norman Lambert. H. T. A distinct color combination that is very novel. The outside of the petals are a deep chrome-yellow with a marginal effect of brilliant orange-scarlet merging to an irregular zone of burnt orange; the inside, a salmon-orange suffused bronze, shading to yellow at the base. The flowers are medium in size, of good form, sweetly scented, and freely produced. \$1.00 each.

Princess Marie Jose. H. T. Long perfect buds of brilliant orange-vermilion opening to a large double flower of cadmium-yellow with vermilion shading. Excellent grower and good bloomer. \$1.00 each.

Roselandia. H. T. Golden orange suffused apricot. The buds and flowers are perfectly shaped. Very free bloomer. \$1.00 each.

Rudolph Valentino. H. T. A recent introduction of Pernet Dutcher of unusual merit. The flowers are large and full with the petals informally, but artistically arranged. The color is a bright shrimp-pink with a golden coppery suffusion, heightened by the reflection from the golden base and reverse side of the petals. Delightfully fragrant, free bloomer, and strong grower. \$1.00 each.

Talisman. H. T. This wonderful rose has been awarded more gold medals than any other American rose yet introduced. It is a wonderful piece of coloring; a combination of shadings of gold, apricot, yellow, deep pink, and old rose. The bud is large, perfectly formed, and develops into a full double flower. The plant is a strong grower, has clean glossy leaves, and is a heavy flower producer. The blossom, when seen, is admired by all and is sure to become as popular as the famous Los Angeles rose. Stock limited. \$1.50 each.

We will supply one each, strong two year old budded plants, of the preceding 20 roses (amounting at the single rate to \$19.75) for \$17.00 post paid in California or Arizona. Or your choice of any 12, except Talisman, one or more of a variety for \$10.00 post paid in California or Arizona.

Collection No. 2

In the following collection we offer some of the new roses to which we have added a few older varieties of merit. Roses that are not as well known as they should be, but that have meritorious qualities.

Betty Uprichard. H. T. Buds of copper-red opening to flowers of unusual size; brilliant orange-carmine on outer surface of petals, showing bright salmon reflexes. 60c each.

Cuba. H. T. A rose that is outstanding in color and size. The flowers, though only semi-double, possess a charm and brilliancy which is entirely new. A scintillating vermilion-scarlet overlying an orange background. The bush is a vigorous grower with dark green foliage which makes a splendid foil for the masses of richly colored blooms which are produced in great profusion from early spring to late fall. 75c each.

DAME EDITH HELEN

Large, full double flowers of glowing pink

Dame Edith Helen. H. T. Considered the finest pink rose of recent introduction. Flowers are of glowing pink which hold their color well and are carried on long stiff stems; has a delightful old rose fragrance. The bush is a vigorous grower, a free bloomer, and is mildew and black spot resistant. 75c each.

Duchess of Athol. H. T. A very interesting and delightful color combination of golden-orange, flushed with peach pink. The flower is very attractive in the bud as well as when in full bloom. The plant is a thrifty grower and continuous bloomer. Awarded the certificate of merit by the National Rose Society of England. 75c each.

Feu Joseph Looymans. Per. Long pointed buds which develop into moderately full flowers of orange-apricot. The color is uniform both in bud and flower. Not a very fast grower but very free in its production of bloom. There is no other rose we know of quite this color. 75c each.

J. Otto Thilow. H. T. A noteworthy addition to the already large list of pink roses. Perfect, long, pointed buds which open to well expanded flowers with attractive reflexed petals. The color is a rich glowing rose-pink. It is a strong grower with clean, healthy foliage; a good bloomer and fine garden rose in every respect. 75c each.

Lady Florence Strong. H. T. New with distinct and novel color. A reddish-brown to violet-old rose, shading to yellow at the base and pink, toward the edge. The inner surface of the petals is heavily veined and flushed with scarlet; very fragrant. The bush is a vigorous grower and free bloomer. 60c each.

Lady Margaret Steward. H. T. One of the finest of the newer roses; its color is unique. The buds are a deep sunflower yellow heavily veined and splashed with orange-scarlet; reverse of the petals deeply suffused with carmine. As the flowers develop these colors blend, forming a beautiful cadmium-effect. The flowers are full and double with a delightfully sweet fragrance. 75c each.

Lady Mary Elizabeth. H. T. A wonderful new rose of outstanding merit and beauty. Well formed buds are produced on long stiff stems and develop to perfect flowers of carmine-pink. They have a very sweet odor and are good for cutting. The plant is a vigorous upright grower with clean healthy foliage. A prolific bloomer. 75c each.

Margaret McGredy. H. T. A new rose of striking appearance, from the British Isles. The flowers are a rich Turkish-red which changes as they age, to a beautiful carmine-rose. The stems are long and stiff, and the blossoms keep well after cutting. The plant is of thrifty, bushy habit, and very free flowering. The flowers have a light spicy fragrance. \$1.00 each.

Mme. Albert Barbier. H. T. One of the finest of all the roses introduced in the last five years. Its color is a soft golden-salmon with shadings of flesh pink and nankeen-yellow. The wonderful coloring and perfect shape are sure to make it very popular. Bush is a strong grower and very free flowering. 75c each.

Mons. Julien Potin. H. T. Referred to by some as the Golden Pernet. The most gorgeously brilliant rose yet introduced. The rich yellow becomes deeper and more intense as the flower ages. The buds are perfect and develop into flowers of perfect form with a delightful fragrance. Clean healthy foliage and a good grower. \$1.00 each.

Mrs. Baraclough. H. T. Large perfect buds which open to enormous flowers of pure pink shading to yellow at the base of the petals. Very fragrant and a heavy bloomer. The plant is an excellent grower and should be in every garden. 75c each.

Mrs. Lovell Swisher. H. T. A beautiful rose produced by Howard and Smith. Long magnificent buds of salmon-pink shading to flesh pink at the outer edges of the petals, which open to perfect flowers of the same color. The plant bears an endless succession of perfect flowers from early spring to late fall. We cannot recommend it too highly. 60c each.

Mrs. W. E. Nickerson. H. T. Long tapering buds of an entrancing color. The exterior of the petals is rich rose-pink shaded with orange cadmium; the lower half

of the interior of the petals is a rich chrome-yellow which passes to a rosy-salmon at the top of the petals. 75c each.

Pres. Cherioux. H. T. A beautiful rose shaded prawn-red with a delightful blending of salmon pink and yellow. The flowers are very double, perfectly shaped, and the plant is a very free bloomer. 75c each.

Rev. F. Page Roberts. H. T. Not a new rose, but one that has shown up remarkably well. The long pointed buds are of a coppery-red on the outside, and open to beautiful double flowers of a vivid golden-yellow. They have a delightful fragrance. The plant is a strong grower and the foliage is very attractive. Awarded the Gold Medal of the National Rose Society. 60c each.

SIR DAVID DAVIS

Sir David Davis. H. T. One of the new red roses that is worthy of a place in every rose garden. Color, an unfading, deep, glowing crimson of an even shade, tinted yellow at the base. The flowers are of good size and form, pointed, with heavy petals, and are strongly sweet scented. 75c each.

Una Wallace. H. T. A beautiful soft, even toned cherry-rose without any other shading. The color is quite distinct from that found in any other rose. It is a very strong grower and a free bloomer; every flower is perfect and delightfully fragrant. 60c each.

Ville de Paris. H. T. Sunflower yellow, deeper in the center and at the base; keeps well without fading. The flowers are large, full, and sweetly scented. Oval buds carried on long stiff stems. A vigorous grower covered with good foliage. 60c each.

We will supply one each, strong two year old budded plants of Collection No. 2, 20 roses (amounting at the single rate to \$14.60) for \$12.50 post paid in California or Arizona. Or your choice of any 12 of Collection No. 2, one or more of a variety for \$7.00 post paid in California or Arizona.

Collection No. 3

We cannot recommend this collection too highly for general planting. All of the plants listed in this group are extremely hardy and will produce a maximum of cut flowers of high quality.

Angel Pernet. Per. A new rose of remarkable color. Well formed, semi-double flowers of rich brownish-orange. The blossoms hold their color well, have some fragrance, and are produced on stiff stems. The bushes are of medium growth and are covered with bright green foliage. 60c each.

Constance. Per. Orange-yellow buds of perfect form, streaked with crimson, developing into a deep golden yellow as they expand. Foliage, glossy green, vigorous, free branching, and free blooming. 50c each.

H. V. Machin. H. T. Well shaped blooms of scarlet-crimson. The plant is a strong grower and free bloomer. An English Gold Medal rose. 60c each.

Imperial Potentate. H. T. The beautifully shaped long buds develop into large, double, sweet scented flowers of glistening rose-pink with silvery suffusion at the base of the petals. Strong upright grower and free bloomer. 60c each.

Independence Day. H. T. A distinct and novel color that at once attracts attention; a rich orange-apricot suffused with yellow. The buds are long, freely produced, and very fragrant. 60c each.

Irish Fireflame. H. T. Beautiful single, long, pointed buds of deep orange, opening from spiral points, and passing to rich, satiny, old gold, veined with crimson. One of the best of its type. 60c each.

K. of K. (Kitchener of Khartoum). H. T. Semi-double rose of dazzling intense scarlet of pure color. Awarded the Gold Medal at the National Rose Society. 60c each.

L. C. Breslau. Per. Long oval buds of coral red, shaded with chrome-yellow, developing into fragrant globular flowers, which present other novel shades. Plant is an acquisition to this class of roses. 60c each.

Laurent Carle. H. T. Deep rosy-carmine; sweet scented, a very consistent bloomer. Becoming quite a favorite. 60c each.

Lulu. H. T. A dainty and distinct single rose. The color is orange-red shaded with pink; most attractive in bud form. 60c each.

Mable Morse. H. T. Beautiful clear unfading yellow buds. The flowers are fragrant, well shaped, and borne on long stems. One of the best yellow roses yet introduced. 75c each.

Miss Lolita Armour. H. T. A popular and very fine rose. The flowers are large and very double; the coloring is a delightful blending of coral-red, with golden coppery-red suffusion. A strong vigorous grower and free bloomer. 60c each.

Mrs. C. N. Forestier. H. T. Intense rich red; the flowers are well formed and hold their color well. A valuable addition to the red roses. 60c each.

Mrs. C. W. Edwards. H. T. Rich rosy-scarlet overlaying an orange background; the base of the petals beautifully toned citron-yellow; a novel color combination. The flowers are large, full, and very fragrant. 60c each.

Mrs. Henry Bowles. H. T. A continuous bloomer and strong grower. The color is an intense brilliant pink with lighter salmon shadings; the flower is perfect in all stages. Cannot be too highly recommended. 60c each.

Mrs. Henry Morse. H. T. A sweet scented, free blooming rose of considerable merit. Bright rose-pink, suffused with vermilion, and with clear vermilion veining on the petals; good grower. 60c each.

Mrs. Redford. H. T. A beautiful new rose of rich, bright orange-apricot coloring. The buds are well formed and open to perfect flowers. A strong grower, free bloomer, and has mildew-proof foliage. 50c each.

Mrs. Wm. C. Egan. H. T. An extremely strong and vigorous grower. Long pointed buds of perfect form that develop into flowers of good shape. Two-toned pink, golden line at base of petals. Carried on long stiff stems and will last in good condition for an unusually long time. 60c each.

Pink Pearl. H. T. Flowers of bright rose-pink shaded red, with a salmon base. Sweetly scented, full blooms produced in great abundance. The bush is a vigorous grower. 60c each.

Padre. H. T. An extremely effective rose rapidly becoming more popular. The color, rich coppery scarlet, is darker and more intense than that of Mme. Edouard Herriott. The flowers are semi-double, borne on long straight stems on a very erect bush, and although they tend to hang their heads when cut, the remarkable color and freedom of bloom make Padre an exceptionally fine rose. 50c each.

We will supply one each, strong two year old plants of **Collection No. 3**, 20 roses (amounting at the single rate to \$11.85) for \$10.00 post paid in California or Arizona. Or your choice of any 12 of **Collection No. 3**, one or more of a variety for \$6.50 post paid in California or Arizona.

Collection No. 4

In this collection we have listed the old standard varieties very moderately priced.

Cecil Brunner. (Pink) Poly. Delicate pink blossoms, tiny buds, perfectly formed; almost continuous bloomer. The plant is very hardy and robust; the best of the baby roses. 40c each.

Crusader. H. T. One of the darkest of red roses. Petals curled, buds very double and extremely showy in the garden. The plant is not large, but the foliage is good and mildew proof. 40c each.

Duchess of Wellington. Intense saffron-yellow stained with deep crimson. These colors change to a deep coppery saffron-yellow as the flowers unfold. Delightful perfume and very free flowering. 50c each.

Frau Karl Druschki. H. P. Sometimes called the White American Beauty. Pure white in color; large flowers. Free flowering, strong grower. The ideal, hardy white rose. 60c each.

General McArthur. H. T. Flowers of warm, rich crimson-scarlet; delightfully fragrant and one of the finest roses for the garden. Erect branching habit and very free bloomer. 40c each.

Golden Emblem. Per. Long shapely buds of rich yellow, beautifully tinted with crimson on the outer petals; opens to a full golden yellow flower. Free flowering and sweetly scented. Glossy green foliage which is free from mildew. 50c each.

Hadley. H. T. Perfect, well formed buds; flowers large, deep, velvety-crimson which retain their color under all conditions. Excellent fragrance; very free bloomer. Unsurpassed for cutting. 50c each.

Hoosier Beauty. H. T. Intense, rich, dazzling crimson-scarlet. The flowers are double, of good size, and delightfully fragrant. 40c each.

Kaiserin A. Victoria. H. T. Soft pearly white, slightly tinted with lemon in the center. Wonderfully scented; beautifully formed buds and flowers on long graceful stems. 50c each.

Lady Hillingdon. H. T. Deep apricot yellow. Long pointed bud that keeps well after cutting and does not lose its color. Foliage, deep green; a vigorous grower. One of the best yellow roses. 50c each.

Lord Charlemont. H. T. A very promising new rose of dark crimson; double fragrant flowers. The plants are good growers and continuous bloomers. 50c each.

LOS ANGELES

Glorious, rich flame-pink, shaded golden yellow

Los Angeles. Per. A rose that is beautiful from the opening of the bud until the last petal falls, producing a continuous succession of long stemmed flowers of a luminous flame pink toned with coral and shading to translucent gold at the base of the petals. The bush is very hardy and the growth is vigorous. Won the Bagatelle Grand Prize and outsells all other roses. 40c each.

Mme. Edouard Herriot. Per. Beautiful buds and flowers of rich coral-red, shaded with coppery-yellow and bright rosy scarlet. Made famous when it won the London Daily Mail Cup in 1912. 50c each.

Mrs. Aaron Ward. H. T. Medium sized flowers of delicate soft rosy-salmon borne in great profusion during the entire season. The bush has a strong, vigorous, compact growth. Very popular in the Southland gardens. 50c each.

Mrs. Charles Russell. H. T. One of the most popular roses for cutting. Large, well formed flowers of deep rose pink borne on long, stiff stems. The bush is vigorous and robust. 50c each.

Mrs. Wakeeld Christy Miller. H. T. One of our finest pink bedding roses. The fragrant large flowers remain perfect on the bush for a long time and are produced very freely. The plant is a strong grower. 50c each.

Pink Radiance. H. T. Succeeds unusually well in hot summer weather when many other varieties fail. Flowers are brilliant, rosy, opaline-pink; large, free, and of beautiful form with sweet fragrance. The plant

is vigorous and disease resistant under all conditions. 40c each.

Red Radiance. H. T. A counterpart of Pink Radiance except for color which is a glowing crimson. 40c each.

ROSE MARIE

Rose Marie. H. T. A perfectly formed flower, deep rose pink with beautifully veined petals and a sweet rich perfume. Exceedingly free bloomer; long stems and foliage which does not mildew. 50c each.

Queen Alexandra. H. T. A brilliant flower of intense vermillion, deeply shaded with old gold on the reverse of the petals which spring from a pure orange base; one of the most remarkable color combinations seen in roses. The flowers are quite full and, when half blown, are bewildering in their beauty. Delightfully sweet scented. 50c each.

Shot Silk. H. T. The general color effect of this charming rose is a delicate salmon pink. The petals are often flushed with orange and cerise, while the base of the petals are yellow. The bush is low and branching with clean, bright green foliage. 50c each.

Souvenir de Claudius Pernet. H. T. Awarded the Bagatelle Prize. At present the best yellow rose ever produced. In great demand because of the lovely sun-flower-yellow flowers which retain their color indoors or outdoors, in bud or when full blown. The plants are of branching habit with bright, leathery, green foliage. 40c each.

Souvenir Georges Beckwith. H. T. A variety that is meeting with much favor; flowers very large, globular and very double, with petals of good substance. Color, shrimp-pink, tinted chrome yellow, shading deeper at the base of the petals, the various shades blending with each other most harmoniously. 60c each.

Souvenir Georges Pernet. Per. A new rose of astonishing size and beauty. Large, beautifully shaped buds of orange-pink. The color of the flowers when in full bloom is oriental red, with carmen and yellow shadings. The bush is of branching habit; a vigorous grower with bright, shiny green foliage. 50c each.

Souvenir H. A. Verschurin. H. T. A beautiful rose of two-toned yellow, the center of which is a glowing apricot-yellow. A strong grower. 50c each.

Victor Maddilove. H. T. Distinct and novel coloring. Long perfect buds of orange-cadmium with the outer petals heavily flushed deep orange. As the flower expands, it changes to a deep-amber-yellow. Plant is vigorous, free flowering, and sweetly scented. 50c each.

We will supply one each, strong two-year-old plants, of Collection No. 4, 26 roses (amounting at the single rate to \$12.20) for \$10.00 postpaid in California or Arizona. Or your choice of any 12, one or more of a variety, for \$5.25 postpaid in California or Arizona.

SPECIAL OFFER of one each of the preceding 86 roses, strong two-year-old budded stock (amounting at the single rate to \$58.40) for \$45.00 postpaid in California or Arizona.

CLIMBING ROSES

Belle of Portugal. Beautiful, long, graceful buds of dawn pink. The plant is hardy and very vigorous grower. 60c each.

Cecil Brunner. One of the strongest climbing roses; flowers identical with the well-known bush variety. 60c each.

Cherokee Pink. Is different from the white only in color of the flowers, which are bright rose pink. 60c each.

General McArthur. Flowers dark red, equal in color and fragrance to the bush variety. 60c each.

Golden Emblem. Unquestionably the finest yellow climber in the west. The flowers are larger than the bush variety, with long shapely buds of rich yellow, beautifully tinted crimson on the outer surface of the petals. Opens to a full golden-yellow flower. The foliage is a bright glossy green and absolutely mildew proof. \$1.00 each.

Hadley. Flowers dark crimson. One of our best red climbers. 60c each.

Hoosier Beauty. The flowers are an exact duplicate of the bush variety. Bright clean red. The plant is a vigorous grower and prolific bloomer. 50c each.

Kaiserin A Victoria. Exquisite buds followed by lovely white flowers of perfect shape. The best white climber. 60c each.

Kitty Kinnimouth. A recent introduction from Australia. The flowers are composed of enormous petals of brilliant carmine-pink; they are large and produce very freely. The foliage of this climber is mildew proof. 75c each.

Lady Ashton. H. T. As a climber this variety is simply enlarged in its attractiveness, for few pink roses are its equal. 60c each.

Climbing Los Angeles. H. T. The Los Angeles rose is now one of the most popular bush roses grown. Here is exactly the same rose in a strong vigorous climber. The glorious flame pink color, and the freedom of bloom are just as marked as in the bush variety. 60c each.

Mme. Caroline Testout. Wonderful, long, graceful buds of dawn pink. The plant is hardy and very vigorous grower. 60c each.

Mme. Ed. Herriot. Buds and flowers of a rich coral-red, shaded with yellow and bright rosy-scarlet. Very stocky vigorous growth. 60c each.

Paul's Scarlet Climber. The brightest red rose grown, the nearest to a pure scarlet; a very strong grower. 60c each.

Rose Marie. New rose of remarkable qualities. Deep pink buds of perfect form, borne on long stems. Flowers large, very double retaining their rich color during the life of the bloom. We recommend this rose as being the utmost in climbing rose perfection. 75c each.

Sunburst. Golden yellow; very brilliant bud and free bloomer. Without doubt one of our best yellows. 60c each.

Standard or Tree Roses

Our tree roses are all carefully grown and budded with varieties that are particularly well adapted to this type of culture.

Established plants in tubs and 5 gallon containers, \$2.50 each; \$22.50 per 10.

Brief Cultural Notes

Care Should be Taken when planting bare-root roses to prevent the roots from drying out. Should you receive your roses with roots dry, it is well to soak the whole plant for twenty-four hours before planting.

Roses Will Do Well in almost any soil, provided the soil is reasonably well drained. They should have the benefit of full sun. Never plant in a shady or wet place, as these conditions are sure to cause the plants to mildew.

When Planting budded varieties, set the bud union about three inches below the surface of the soil, as this will help materially in eliminating the suckers, which sometimes spring up from the Ragged Robin root stock. Should these suckers appear they can easily be detected by their vigorous growth and should be removed immediately, as they retard the growth of the budded part of the rose.

A Thorough Soaking at the time of planting, followed by a good watering every two weeks is sufficient for the average soil and climatic conditions. After each watering, as soon as the surface has partly dried, the soil should be lightly cultivated to help retain the moisture.

Roses Respond readily to fertilization, and a generous covering of well-rotted barnyard manure placed around the bushes two or three times a year will aid greatly in producing good blossoms.

Do Not Make the Mistake of trying to make your roses bloom every month in the year. They should be given a rest during July and August and this can be accomplished by decreased the supply of water during these two months. For the best results, the bushes should have a light pruning the first of September and a heavy pruning the first of January.

Mildew on the Leaves and stems of the bushes can be controlled by spraying with a lime sulphur solution. Aphis can be disposed of by spraying with a good nicotine and fish-oil solution.
